

BENEFITS OF COLD THERAPY It is very common to experience pain and/or swelling as you begin to heal. Many physicians encourage their patients to use cold therapy due to its benefits. Cold therapy effectively reduces pain, discomfort, and swelling associated with injury or surgery. For these reasons, your doctor has recommended cold therapy to maximize healing and get you back to your active lifestyle.

AIRCAST CRYO COOLER WITH CUFF \$125

Accelerate your Healing Game Ready GRPro 2.1 Unit \$75.00 wkly

ACTIVE ICE 2 FULL INSERTS PLUS WRAP \$45

HOW COLD THERAPY WORKS

A cold therapy device delivers cold compression to the injured or recently repaired area by using a pad that is conveniently placed below a brace or splint.

COLD THERAPY OPTIONS

Game Ready Machine

\$75.000wkly+outer sleeve\$65.00

Aircast Cryo Cooler with cuff \$125.00.

Active Ice is composed of nontoxic gel, with segmented water pillows, 2 full inserts plus wrap = \$45.00

INSURANCE COVERAGE

Insurance companies do not pay for cold therapy unless deemed a worker's compensation injury; therefore, it is not billed to insurance. You are responsible for the total purchase.
